

SUPPLEMENTAL STAFFING for Residential Providers

March 25, 2020

Residential Providers:

Recognizing that residential providers in all licensing categories may need supplemental staffing to support clients remaining at home from day program/services or work to mitigate the spread of COVID-19, RCEB will fund supplemental staffing under service code 109.

If you are already vendored for service code 109, further instructions will be provided early next week to determine which client or clients will receive a POS for the day program/services hours so that the staffing ratios remain consistent with the level of care home.

If you are not vendored under service 109, then please contact Amy Schwartz at ASchwartz@rceb.org. We will work with you to expedite the vendorization. Please know that due to a high volume of requests, it may take some time to receive the new vendor number for service code 109. However, please be assured that RCEB will fund retroactive to the effective date that the client began remaining at home.
