Register Here:

ALL Staff Listening Session

ABOUT THE SESSION (what to expect): Designed for maximum engagement from the participant staff. There will be a panel representing Executive + Senior Leadership that will actively listen + take notes in preparation for thoughtful responses, actions and feedback.

This is not a Q+A. There will be opportunity for that type of forum as a follow up to these sessions.

Purpose: To create space and opportunity for the new Executive Leadership to hear from ALL RCEB staff directly. To gather insights, thoughts, feedback, comments, and suggestions regarding service delivery, organizational culture and overall pulse check. To hear about wins; what's working well and those individuals and teams delivering exemplary service or who deserve to be recognized. And to hear about what's not working and potential opportunities for improvement.

ASL translations will be provided
